

Scoring Matrix

1 Needs work

2 Developing

3 On track

4 Good

5 Excellent

Participant Name: _____ Judge: _____

01	It runs Functionality & Completeness	1 Needs work	2 Developing	3 On track	4 Good	5 Excellent
	circle →	App doesn't run at all. Cannot demo anything.	App launches but crashes mid-flow or major features are broken.	App runs end-to-end. Lab 1 complete. Minor bugs are fine.	Fully working with clean UX. Handles edge cases without breaking.	Polished, robust, feels production-ready. Goes noticeably beyond Lab 1.
02	Actually used Bob Look at the app — complexity, structure, and features tell the story	1 Needs work	2 Developing	3 On track	4 Good	5 Excellent
	circle →	App looks identical to the solution folder. No sign of Bob being used creatively.	Followed lab prompts step by step. Output matches the base template closely.	Clear evidence Bob was used to build and shape the app beyond just copying prompts.	App shows iteration — features, structure, or logic that go beyond what the lab instructed.	Unmistakably Bob-built and explored. Complexity or creativity that couldn't come from copy-paste.
03	More than the base lab Creativity & Personalization	1 Needs work	2 Developing	3 On track	4 Good	5 Excellent
	circle →	Identical to the base lab. Nothing added or changed.	One tiny change — a color, a label — but nothing meaningful.	Completed Lab 2 or Lab 3, or added one clear original touch.	Multiple personalizations or a genuinely different angle on the use case.	Went well beyond the labs. New feature, different industry, or creative extension.
04	Wow factor That moment where a judge thinks — “ok, that’s actually cool”	1 Needs work	2 Developing	3 On track	4 Good	5 Excellent
	circle →	Nothing stood out. Feels like a checkbox exercise.	Competent but forgettable. Does the job, nothing more.	One thing caught the judge's eye — a smart use case, a nice UI detail, a clever feature.	Genuinely impressive in at least one dimension. Would remember this one.	Judges are talking about this one after. Could show this to a client tomorrow.

Total Score (out of 20): _____ / 20 Scores will be averaged across all judges.
